

EARTHQUAKE RESILIENCE CONFERENCE

*COLLABORATION AND COORDINATION IN
DISASTER PREPAREDNESS AND RESPONSE*

CONFERENCE OBJECTIVES

- *Promote concerted, collaborative and coordinated approach to earthquake preparedness and response*
- *Identify areas where collaboration and coordination would add value to current preparedness and response plans*

WHY COLLABORATE? WHY COORDINATE?

- 7.2 magnitude earthquake is a complex emergency requiring speedy and simultaneous response on many fronts
- No organization or entity acting alone can do everything
- Well-organized collective effort will save lives, reduce economic losses , hasten recovery
